- someone's health problems before the person told you about them?
- 22. Have you ever realized that an event you had no control over was about to occur, that you "saw" it happening? This would include auto accidents—knowing that a driver is going to pull out in front of you—earthquakes, air-plane crashes, and so on.
- 23. Have you ever felt positive or negative vibes (or feelings) upon entering a room?
- 24. Have you ever picked up a personal object (e.g., a wallet, watch, ring, bracelet) and felt vibes from it?
- 25. Have you ever seen a photograph and immediately realized or felt you knew the story behind the photograph?
- 26. Have you ever, while observing a famous personality on TV, had flashes of information concerning that person?
- 27. Have you ever found yourself in a new situation but felt that you had been there before?

- 28. Has someone ever asked you to help recover a lost object, and by closing your eyes, you were able to visually locate the object?
- 29. Have you ever set out to dream up a solution to a problem and then gone to sleep, awaking with the solution?
- 30. Have you ever been in a situation where, on the surface, all appeared to be normal, but, in an instant, you *knew* (correctly) that something was out of sync? Did you also know what it was?
- 31. Have you ever heard your name

called but found no one there?

- 32. Have you ever heard a sound that no one else seemed to hear?
- 33. Have you ever heard a conversation being carried on by two people known to you and you were not present at the time?

**Bonus question:** Have you ever doubted your sanity when one or more of the above events occurred?

**Scoring**

Give yourself one point for each *yes* answer. Total the points, and read on to find out how you rate.

**31-33 points:** Your ESP is highly developed.

**26-30 points:** In all probability, you're already using ESP in your life; you just may not have called it that.

**21-25 points:** Say, "I'm great!" and pat yourself on the back. You have a high degree of ESP ability—as you or your friends have probably already noticed.

**16-20 points:** Wonderful score! You have a good ability, and it can only get better. Go for it!

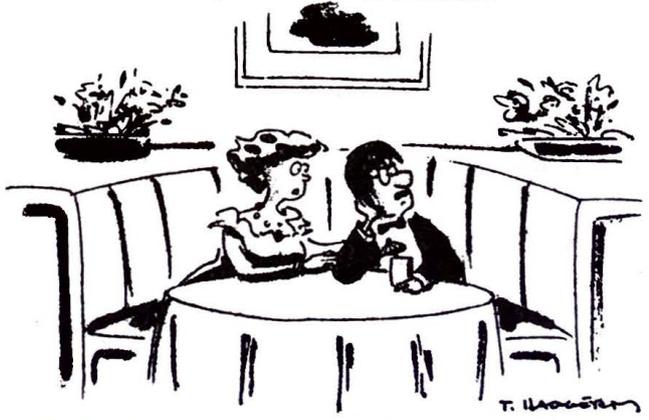

**11-15 points:** Not bad! You have a perfectly solid base from which to operate.

**6-10 points:** You have good working potential!

**1-5 points:** Don't worry. By answering *yes* to even one question, you've shown that you *do* have a knack for ESP development.

**Zero points:** Even if you answered *no* to all the questions, it could be that the questions just did not cover any of the ESP-related events you have personally experienced. It could also be that you have been too inhibited and have been subconsciously blocking ESP experiences.

**Bonus point:** If you answered *yes* to this question, congratulations! You're part of the human race. Most people have felt this way, and I just wanted you to know it's okay. Once you have more psychic occurrences, you'll find this feeling easier to handle. ☺
